PERFORMANCE ON STATE ASSESSMENTS

Federal law requires that student achievement results for schools providing Title I services be reported to the general public.

The Illinois Standards Achievement Test (ISAT) is administered to students in grades 3, 4, 5, 7, and 8. The Prairie State Achievement Examination (PSAE) is administered to students in grade 11. The Illinois Measure of Annual Growth in English (IMAGE) is administered to students in state-approved transitional bilingual programs. The Illinois Alternate Assessment (IAA) is administered to students with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the ISAT or PSAE would not be appropriate.

Students with disabilities have an IEP or Section 504 Plan. An IEP is a written plan for a child with a disability who is eligible to receive special education services under the Individuals with Disabilities Education Act. A Section 504 Plan is developed to provide reasonable accommodations for a child who meets the definition of a qualified person with a disability under Section 504 of the Rehabilitation Act of 1973.

Schools with grade 2 as the highest grade in the school use a state-adopted test in reading and mathematics to meet this requirement.

in order to protect students' identities, test data for groups of fewer than ten students are not reported.

PRAIRIE STATE ACHIEVEMENT EXAMINATION (PSAE)

The following tables show the percentages of student scores in each of four performance levels. These levels were established with the help of Illinois educators who teach the grade levels and learning areas tested. Due to rounding, the sum of the percentages in the four performance levels may not always equal 100.

Level 1 -- Academic Warning -

Student work demonstrates limited knowledge and skills in the subject. Because of major gaps in learning, students apply knowledge and skills ineffectively.

Level 2 -- Below Standards -

Student work demonstrates basic knowledge and skills in the subject. However, because of gaps in learning, students

apply knowledge and skills in limited ways.

Level 3 -- Meets Standards -

Student work demonstrates proficient knowledge and skills in the subject. Students effectively apply knowledge and skills

to soive problems.

Level 4 -- Exceeds Standards -

Student work demonstrates advanced knowledge and skills in the subject. Students creatively apply knowledge and skills

to solve problems and evaluate the results.

White Black Hispanic Asian/Pacific Islander													2 444 170	
Native American														
LEP Students with Disabilities Economically Disadvantaged	- - -													

Three Conditions Are Required For Making Adequate Yearly Progress (AYP)

- 1. At least 95.0% Tested for Reading and Mathematics for the All Group and Subgroups
- 2. At least 40.0% Meeting/Exceeding Standards for Reading and Mathematics for the All Group, and at least 37.0% for all Subgroups to compensate for error in measurement for smaller subgroup sizes, or meet Safe Harbor requirements***
- 3. At least 88.0% Attendance Rate for Non-High Schools or at least 65.0% Graduation Rate for High Schools

^{*} Includes only students enrolled as of 9/30/02.

^{**} Safe Harbor Targets of 37% or above are not printed.

^{***} Subgroups with fewer than 40 students are not reported. Safe harbor only applies to subgroups. In order for safe harbor to apply, a subgroup must decrease by 10% the percentage of scores that did not meet state standards from the previous year plus meet the other indicators (attendance rate for non-high schools and graduation rate for high schools) for the subgroup. Safe harbor allows schools an alternate method to meet subgroup minimum targets on achievement.

SCHOOL IMPROVEMENT PLAN For Northwestern Community Unit School District No. Two

School Improvement Plan for Advancing Academic Achievement

The State of Illinois requires that each school attendance center develop and implement a building based School Improvement Plan. This plan was developed through cooperative involvement of building staff, parents, and community representatives, and falls within the framework established at the district level to meet the criteria for the Quality Assurance Program as established by the Illinois State Board of Education.

District Plan

The Northwestern Community Unit School District, through participation of representative stakeholders, will provide a District School Improvement Plan Framework designed to maintain a general continuity of procedures, philosophy and service among all attendance centers to all students within the district.

Building Level Plan

The Primary Purpose of the building level plan is to provide the leadership of each school with a process to help guide their decision making regarding improvement and programs to their students. The underlying philosophy of that plan should be built on the following beliefs:

- All children can learn;
- All children must be served;
- The primary purpose of the school improvement process is to improve student performance;
- A school is an observably dynamic place where all can and will improve;
- High expectations are necessary to achieve a world class education; and determined and clearly communicated by the board of education, administration, teachers, students, parents and members of the community.

Each school will annually undergo a rigorous Internal Review self-analysis which will encourage staff, parents and the school community to reflect on the effectiveness of existing school policies and practices.

The Illinois State Board of Education will periodically (every 4-6 years) provide External Review for each school, which will involve a group of educators, parents and community members from outside the district who will work to develop a collective prospective on work of the school.

School Improvement Plan For Northwestern High School 2003-2004

As a result of the School Improvement Process and our Internal Review, we have found the following areas of accomplishment and success in Northwestern High School during the 2002-2003 school year:

- Improvement in scheduling student classes;
- Development of two computer labs;
- Addition of Vocational courses to the curriculum that are taught with increased technology usage;
- Refinement and improvement of the student discipline policy;
- Initiation of grade level assemblies to begin the school year;
- Commitment to advance the use of technology in the classrooms;
- Improved participation in district, regional, state and national staff development;
- Addition of new internet access to administration, computer labs and classrooms;
- Building improvements on the outside of the building including the installation of new windows on 50% of the building and 100% removal of asbestos in the window replacement area;
- Student attendance rate improvement;
- Intercom system installed for better communication throughout the building, as well as creating a safer environment for our students;
- New sound system installed around athletic field above the new grandstands; and
- Junior and Senior High Kitchen remodeled and brought up to code.

The following specific areas are targeted for improvement this year:

- Improve the opportunities for the use of technology in the curriculum:
- Improve communications with parents and the community;
- Increase career awareness and opportunities for students across the curriculum;
- Improve extracurricular facilities for students and the physical conditions of the buildings and grounds; and
- Install an outdoor sign near the athletic field identifying the Northwestern Wildcat Field.
